Use and Care Instructions

Model: S-FCD010-2

Product Description: Fill Master™ Toilet Water Saver

Use Instructions:

Step 1: Carefully remove toilet tank lid and set aside.

Step 2: Pull hose loose from overflow tube.

Step 3: Insert end of Fill Master™ into end of hose. If needed, cut hose slightly to achieve a proper fit.

Step 4: Clip Fill Master onto overflow tube.

To Save:

½ gallon of water per flush- position Fill Master so that only nozzle #1 is outside the tube

1 gallon of water per flush- position Fill Master so that nozzles #1 and #2 are outside the tube

1-1/2 gallons of water per flush- position Fill Master so that nozzles #2 and #3 are outside the tube
